## **Orion Executive Speaks at LTC**

CLEVELAND – The executive vice president of Orion Energy Systems, Michael Potts spoke at Lakeshore Technical College, as part of its Distinguished Leader Lecture series.

Orion Energy Systems has its corporate headquarters in Plymouth and manufacturing plant in Manitowoc.

Potts spoke to LTC students and staff members about challenges facing the modern energy system, global energy demand and consumption and the importance of energy efficiency.

Potts said Orion looks for certain qualities in future associates, including open-mindedness, flexibility and adaptability. He also said Orion looks for self-starters and individuals who are able to work both independently and in groups.

Previous speakers in the LTC series include Doug Quick of Lakeside Foods, Laura Kohler of Kohler Company, and Terry Growcock of the Manitowoc Company.
